

# | Exclusive Line all-inclusive

B-CL 614

## A very special way to experience a Hymermobil.

Exclusive Line. All inclusive, elegant, conceived down to the last detail, in select quality. The tone inside is set by furniture from the Almeria style collection with its sweeping lines and elegant curves.

High-quality edgings today are important elements in modern furniture design and a feature of top quality workmanship. The bottom edgings of the overhead storage cupboards are in Noce Bergamo design. Chrome strips in inlaid in the base of the overhead cupboards accentuate the designer styling. Choose your personal preference from the many fabulous fabric and upholstery combinations.

## L-shaped kitchen par excellence

It not only looks like a nouvelle cuisine, its main highlight is practicality. Roller-mounted drawers and large pullout units in the kitchen base unit of the L-shaped kitchen offer masses of space for your utensils. The 3-hob cooker is so simple to use with its inserted automatic ignition.

The continuous grating is easy to clean and provides enough space for three cooking pots. The extra high single lever mixer tap is in high-quality chrome design and fitted with ceramic seals. A total of seven halogen spots throw light on your special menu for the evening.

## The luxury and comfort of cosy living.

The focus of hospitality is the L-shaped lounge group. The oval shape of the table can be moved to exactly the position you want. Whether there are two, three, four or five of you, the table is variable and versatile. At the same time, the elegant table top trim blends in harmoniously with its surroundings. The HYMER luxury driver and front passenger seats are extremely comfortable and are rotatable to face the table. The „All Inclusive Equipment“ level includes a 150 litre AES fridge, a 19" TFT flat screen, a DVD player and additional radio/TV prewiring.

## Standard luxury equipment to celebrate the 50,000th B-Class

The „All Inclusive plus“ package includes several interesting details. The Exclusive Line demonstrates its superiority by its exterior. The side panels, rear, rear-light cluster, wheel arches, skirts and nose spoiler are in metallic champagne, producing an overall harmonious design. The large size exterior mirrors in champagne are electrically heated and adjustable.

The sturdy body door includes an insect screen and is protected on the outside by a rain gutter. There is an integrated entrance lamp which also acts as lighting for an awning.

An attractive blackout system in the driver's cab keeps the light out and prying eyes at bay. The integrated solution comprising front roller blind and side curtains also stops the heat or cold from entering the interior.

A panorama roof vent brings lots of light and an open top feeling into the interior.

The B-CL 614 Exclusive Line model comes with a standard rear garage that provides additional stowage space. Bikes, scooters or sporting equipment - there's room for them all here.

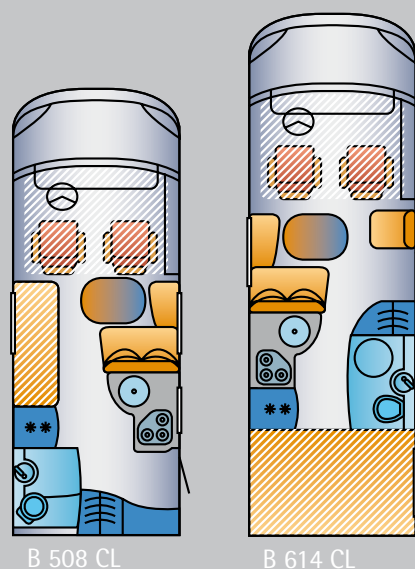

# | Equipment
