

Alcove 2009

Hymer Camp

HYMER
Experience tomorrow today

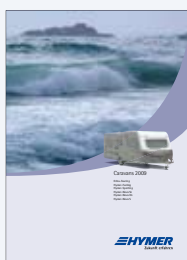

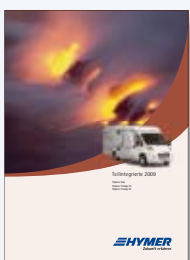

All aboard, wagons roll and here come the holidays and the good times. And your bed with you, all ready made and waiting. This is what alcove models all have in common. Family friendly, sporty and innovative. Elegant, dynamic styling and practical design. The elegant rounded alcoves with their integrated alcove window blend harmoniously into the overall appearance. Inside there is plenty of sleeping space for two people.

Find out about other HYMER model series in separate brochures. On request we can send them to you. „Integrated 2009“, „Semi-Integrated 2009“ and „Caravans 2009“.

The book „HYMERLINER“ contains information about our latest luxury model series.

Or simply request any brochure from www.hymer.com.

Hymer Camp

The family friendly, compact entry-level model to mobile holidays based on the Ford chassis. Two layouts with additional bunk berths at the rear.

4

Hymer Camp

Based on the Fiat Ducato chassis. A model under six metres and four other models with generous layouts.

Technical highlights

18

Hymer Camp

Dynamic and powerful. Hymer Camps on the overtaking lane. The cab is elegantly integrated with the camper body by a dynamic automotive design coupled with an attractive exterior paintwork. At the front: the Hymer Camp 522 in bordeaux red and Crystal Silver on a Ford chassis.

This shows the „Imperial Blue“ colour combined with white: the Hymer Camp 614 on Fiat Ducato chassis. No matter which colour combination you choose – the elegant design is blend in well with the styling.

With all the comforts of home away from home. The new furniture concept with its warm colours in Lugano pear wood and rounded styling underscore the flowing lines and modern interior architecture. Cream coloured edgings and trims emphasise the swept design and give the impression of spaciousness inside.

An eye-catching view with practical functions: the high board that also acts as a partition between the kitchen area and the seating group. Here you will find plenty of space to stow your glasses, cups, etc. It also integrates a TFT flat screen which swivels down and can be turned in any direction you want. You can view the TV from any point inside the van. Spots are built into the continuous lighting trim.

Camp 614

Plenty of space for the whole family. Perfected harmony of materials, shapes and functionality. The centrepiece in the Hymer Camp 534 living area is the generous table which seats four people comfortably. With one movement, you can lower the table and turn the seating group into an occasional comfortable bed.

The functional layout is reflected in the arrangement of the individual areas. Right next to the entrance is the compact kitchen with its high board which can house a jumbo size fridge. Opposite is the generous washroom with separate shower, and in the rear the optional bunk beds. As a result, this model boasts plenty of space for five.

Camp 534

View of the luxurious layout of the Hymer Camp 522 with the Ibiza upholstery combination. The warm colour combinations of the backrests in a red structured fabric with the elegant beige colours of the seat upholstery and edge trims blend in perfectly with the furniture in Lugano pear wood.

The seating group solution is intelligent by including the driver and front passenger seats, the opposite seat and the swivel-out table top that offers plenty of space for 5 people. Behind the L-shaped kitchen is the room high board which can optionally house a jumbo size fridge. The large bathroom with separate shower and the bunk beds at the rear of the van make this Ford Transit based model into an ideal van for four people.

Camp 522

The feeling of spaciousness in the Hymer Camp

Camp 614

An L-shaped kitchenette full of surprises. Modern, attractive and functional. Many convenient pullout units in the kitchen base unit use the entire depth and offer masses of space for various kitchen utensils. The 3-hob gas cooker is just in the right position. Its continuous grating makes it easy to clean and provides enough space for three cooking pots.

The flame ignition is recessed, thus offering a generously large childproof work top. The round sink is covered with a lid that can be used as a cutting board or as a guard to prevent fat from spraying onto the back of the bench seat. A modern single lever mixer tap for hot and cold water rounds off the luxurious presentation. In the base of the kitchen top cupboards are 4 halogen spots to light up the work top. Three more spots in the lighting trim provide optimum lighting. Next to the L-shaped kitchen is a large capacity 113 litre fridge with internal lamp (optionally 150 litres).

The bathroom has such a variable design for such a small space that it is almost peerless. This is why it is called the Vario luxury bathroom. The washbasin can be swivelled out of the way to make the shower area larger. The separate shower cubicle with round doors has an elegant material combination of transparent acrylic glass, mirror surfaces and warm wood hues. The perfectly selected appointments include practical utensil cabinets, many oddments holders and a flood of light from the special lighting system. Washbasin base units, cupboards and covers in Lugano pear wood finish. The sturdy bathroom door with its luxurious handle is mounted flush with the walls. The cupboard handles and fittings are bright, high quality additions.

Sweet dreams in the Hymer Camp

The overcab bed is enormous and comfortable. The unusually large area and height gives an impressive feeling of freedom. The actual clearance is 70 cm.

The overcab bed can be raised in one movement to leave a generous feeling of space when it is not in use.

You'll feel cosy and warm in all the beds and sleeping areas. Most models have other luxurious sleeping areas besides the generous overcab bed.

Even in the compact Hymer Camp 484 the half seating group is easily converted into an extra bed. Fixed beds are fitted at the rear of the van in almost all layouts. They are integrated as double beds on models 614 and 634.

A sophisticated slatted frame combined with a high quality foam mattress makes for incredibly relaxing nights in the cosy fixed beds. The bunk beds in models 502, 522, 534 and 684 underline the family friendliness of these vans.

Some models even have a large side diner which can be converted into an extra bed. An additional comfortable couch in the 684 is a tempting invitation to stretch out and relax.

A history of progressive technology

For example, the PUAL System, the unique construction with which HYMER has been setting the pace in automotive engineering since 1978. The excellent insulation of the closed-pore PU foam guarantees a pleasant climate in summer and cosy warmth in the cold months of the year. Heat insulation is equivalent to a solid masonry wall 80 cm thick.

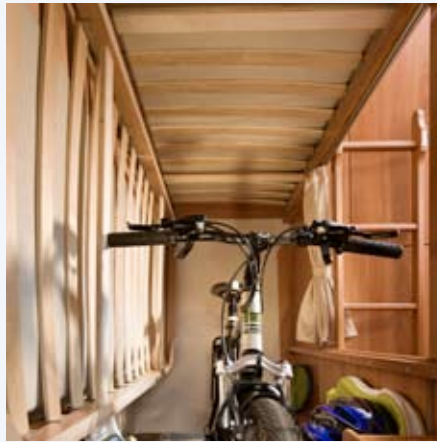

Moreover, this construction method is absolutely waterproof and rot-proof. The walls and roofs are manufactured in one process and can therefore withstand extreme stresses. The outer skin made of aluminium protected by a stove-enamel finish, making it even more resistant, retains an intensive gloss that is more sustainable and visible over the long

term. This paint finish is extremely resistant to weather and environmental effects.

Technical highlights

Spacious rear garage in Hymer Camps 614 and 674 have an extra large load space capacity to house sports gear, scooter, bikes, etc. A lashing system with flexibly placed lashing eyes secure the valuable cargo safely with lashing straps.

On models with rear bunk berths, the lower berth can be raised to provide room for use as a garage. Bulky items you may need on holiday can be stowed safely through the large garage door, e.g. bikes.

A living area door with multiple functions. The structured inside of the door is fitted with stowage compartments, clothes hooks, a flexible plug-in element and a large ergonomic access handle. A safety lock ensures that the door is closed. An insect screen rounds off the versatile entrance door.

Double-shell, large-size roof fan. Variably adjustable. It provides plenty of light, pleasant fresh air supply and a cosy climate in the interior. You can safely leave it open permanently as there is no risk of rain entering. Four integrated spots provide pleasant lighting at night.

The wardrobe is split horizontally to help keep things neat and tidy. Some models also include an additional linen compartment. Careful attention to detail: a shoe horn.

Note:

This brochure describes the series status at the time of publication. Some of the photos contain optional extras.

Despite careful checking of the contents, printing errors are not excluded.

During the course of the model year, we retain the right to make changes in equipment or product improvements.

Before signing a contract of sale, please ask our authorised HYMER dealer for our current products and series status.

Some vehicles include optional extras which are quoted in the current price list and available at extra cost. The decoration shown is not supplied by HYMER. The details of scope of delivery, appearance, performance, dimensions and weights of the vehicles – deviations within the factory tolerance limits (+/- 5% max.) are possible and permissible – are valid at the time of going to press. They conform with the European provisions governing homologation; they may change up to the point of vehicle purchase or delivery.

Your HYMER dealer will gladly provide information on changes and the standard scope of delivery.
